Illinois Community Colleges

Opportunity With Excellence

ILLINOIS DOCUMENTS

MAR 28 1991

ILLINOIS STATE LIBRARY

January 1991

Published by the Illinois Community
College Board, 509 South Sixth Street,
Room 400, Springfield, IL 62701-1874.
(217) 785-0123.

The System

Although the first public junior college in Illinois was established in Joliet in 1901, the Illinois Public Junior College Act was not passed until 1965. The Act was an outgrowth of the 1964 Master Plan published by the Illinois Board of Higher Education. This legislation, with subsequent amendments, is the basis for the present system of public community colleges in Illinois.

There currently are 40 public community college districts comprised of 50. Of these 40 districts, 38 have locally elected boards of trustees, one (Chicago City Colleges) has a local board of trustees appointed by the mayor, and one (State Community College) has a local board of trustees appointed by the Governor. Thirty-seven of the districts have a single college. Two districts are multi-college, with Chicago having eight colleges and Illinois Eastern having four colleges. With the exception of State Community College, each district has tax levy authority to provide local support for district operations.

The Illinois Community College Board has statutory responsibility for planning and coordinating the programs and activities of the public community colleges. The Board consists of eleven members appointed by the Governor, whose appointments also require Senate confirmation, and one student member selected by the Student Advisory Committee. Board members are appointed at large for six-year terms. The Chairman of the Board is selected by the Governor. Current members and the Interim Executive Director of the Board are:

Harry L. Crisp II, Chairman, Marion
Robert E. Sechler, Vice Chairman, Rockford
E. Dave Davis, Moline
Miriam Lugo-Gonzalez, Chicago
Toussaint L. Hale, Chicago
Joel W. Jennings, Metropolis
Judith E. Madonia, Springfield
Delores S. Ray, East St. Louis
John M. Schultz, Effingham
Donald D. Zeglis, Mokenca
Rosemary S. Ziska, Wheaton
Mark Kochan, Herrin, Student Member

Cary A. Israel, Executive Director

The Board utilizes the advice and counsel of all constituent groups of the community college system in establishing policies necessary to implement state statutes. Four organizations representing various community college constituents in the state have been designated as official advisory groups to the Illinois Community College Board. These four organizations are:

Illinois Council of Public Community College Presidents
Illinois Community College Trustees Association
Illinois Community College Faculty Association
Student Advisory Committee

Numerous other ad hoc committees and task forces also provide advice and counsel.

The Programs

Community colleges offer a variety of programs ranging from short-term certificates that take only a few weeks to complete to associate degrees that take two years of full-time attendance to complete. Associate in Arts (AA) and Associate in Science (AS) degrees are designed for the first two years of baccalaureate education. Students who earn these degrees generally transfer to universities.

An Associate in Applied Science degree prepares students for employment in a specific field, as do specialized certificates. Students are able to select degree and certificate programs from among 240 occupational specialties in a variety of fields. A brief description of the various types of occupational/technical programs available at community colleges is shown below:

AGRICULTURE/NATURAL RESOURCES - Programs include agricultural business and management, agricultural production, agricultural service and supplies, conservation and natural resources, horticulture, and parks and recreation.

BUSINESS - Programs include accounting and bookkeeping, administration and management, auto and accessory marketing, banking and finance, data processing, fashion merchandising, financial services marketing, food marketing, freight transport marketing, general marketing, hospitality and recreation marketing, hotel/motel management, insurance marketing, international business management, inventory/material management/purchasing, labor/management relations, office supervision and management, personnel management, real estate, retailing, secretary/information processing, small business management/ownership, trade/industrial supervision, travel and tourism.

COMMUNICATIONS - Programs include advertising, commercial music/theater, communication media, journalism, public relations, radio/TV broadcasting, technical/business writing.

CONSTRUCTION TRADES- Programs include brickmasonry, carpentry, electrical, construction trades, plumbing/pipefitting, construction trades integrated.

FOOD PRODUCTION AND MANAGEMENT - baking, chef/cook/culinary art, dietetic aide, food service/restaurant management, meat cutting, and waiter/waitress.

HEALTH - Programs include alcohol/drug abuse, computer tomography, dental services, diagnosis medical sonography, emergency service ambulance/paramedic, habilitation aide, home health aide, magnetic resonance imaging, medical assisting, medical laboratory technology, medical records, mental health, nuclear medical technology, nursing home care, nurse assisting, practical nursing, registered nursing, ophthalmic services, pharmacy assisting, physical/occupational therapy assisting,

physician assisting, radiologic technology/radiation therapy, renal dialysis, respiratory therapy, surgical/operating room technology, and veterinarian assisting.

MECHANICS AND REPAIRERS - Programs include agricultural mechanics, aircraft mechanics/avionics, auto body repair, auto mechanics, diesel mechanics, electrical/electronic repair, heating/air conditioning/refrigeration, industrial equipment maintenance and repair, small engine repair, and watch and clock repair.

PUBLIC, PERSONAL, AND SOCIAL SERVICES - Programs include barbering, child care and development, civil defense, cosmetology, criminal justice/ corrections, elder care, fashion design and coordination, fire protection, foster care, home care/custodial, interior design/decorating, interpreter training, legal assisting, mortuary science, public administration, public works, social work/service, and teacher aide.

TECHNOLOGIES - Programs include automated manufacturing, biomedical equipment, chemical/hazardous material management, civil engineering, computer science, computer aided design, drafting, electromechanical, electronic, environmental control, foundry, graphic and printing, industrial production, jewelry design and fabrication, laser electro-optic, leatherwork and upholstery, machine tool, mechanical design, metallurgy, micro/industrial electronics, micro-precision, mining and petroleum, nuclear power, numerical control, plastics, power plant, quality control/safety, robotics, sheet metal, telcommunication electronics, tool and die, and welding and fabrication.

TRANSPORTATION- Programs include airplane pilot, aviation management, and truck driving.

The general associate degrees enable the community colleges to customize the curriculum to the specific career needs of the student by using a combination of academic and technical courses.

In addition to degree and certificate programs, community colleges offer a wide variety of other educational opportunities: developmental and remedial instruction—including adult basic and adult secondary education; continuing education and personal enrichment; short-term vocational and technical training; and various public service programs.

Many programs are available at each local community college at a very affordable in-district tuition rate. Students interested in a program not available at the local college can enroll at another community college where that program is available.

The Students

	<u>1987</u>	<u>1988</u>	<u>1989</u>
Total Fall Headcount Enrollment	324,163	328,276	341,733

40-55	11.6	12.0	14.4
Over 55	6.6	5.5	4.3
Unknown	1.3	1.3	1.0

The Facilities

The facilities for public community colleges in Illinois are financed by both state and local funds. A state-funded project is one which has been partially or fully funded with a state appropriation. A locally funded project is one which has been totally funded from local district bond issues, local district tax levies, federal grants, foundation or other grants, gifts, student fees, or any source which is not state appropriated.

The 50 community colleges in Illinois have facilities consisting of:

- * 7,231 acres of land
- * 17.79 million gross square feet of completed buildings:
 - 11.64 million gross square feet permanent—state supported
 - 5.18 million gross square feet permanent—local funds only
 - .97 million gross square feet temporary—local funds only
- * .79 million gross square feet of buildings under construction:
 - .04 million gross square feet permanent—state supported
 - .75 million gross square feet permanent—local funds only

Of the 17.79 million gross square feet (GSF) of completed permanent facilities, both state and locally funded, 12.27 million is assignable for a particular use (net assignable square feet - NASF). The major uses of the facilities, as classified in the Higher Education Facilities Inventory and Classification Manual, are as follows:

Classrooms	2.03 million NASF
Class laboratories	3.38 million NASF
Offices	1.97 million NASF
Library/study	.91 million NASF
Athletic/P.E.	.89 million NASF
Theater/auditorium	.24 million NASF
All other	2.85 million NASF

Expenditures for completed physical facilities from federal, state, and local dollars total \$870,524,826. Of this amount, the state has appropriated \$392,405,798 (45.1%); the federal government has contributed \$31,787,884 (3.6%); and local districts have spent \$446,241,144 (51.3%).

As of fall 1989, an additional 795,841 GSF (527,060 NASF) of space has been approved and currently is being constructed. The approved budgets for these projects total \$125,873,779.

The Staff

Instructional Teaching Faculty - Fall 1989
